Practices and Biosecurity Measures in the Apiculture Sector

INTERNATIONAL SYMPOSIUM ON BIOSECURITY MEASURES IN BEEKEEPING

WEBINAR 10 JUNE 2022

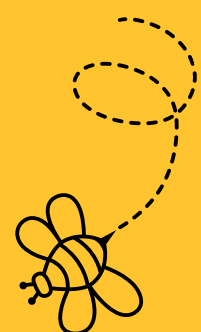

Aim of the webinar is to promote awareness on biosecurity measures adopted in beekeeping in the different part of the world, sharing perspectives and taking into account regional differences.

Registration deadline: 8 June 2022

**Confirmation and webinar link will
be sent on 9 June by mail**

Registration form

**Recipients: official and freelance
veterinarians and other figures**

**Note for italian
veterinarians: Credits SPC
will be issued to those
who request them and
have followed the entire
webinar**

Agenda

14.00 (CET) Welcome to participants

Dr. Andrea Leto (Istituto Zooprofilattico Sperimentale del Lazio e Toscana, FAO Reference Centre for Apiculture, Health and Biosecurity and WOAHA Collaborating Centre for Good Beekeeping Management Practices and Biosecurity Measures in the Apiculture Sector)

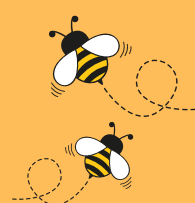

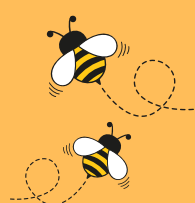

Dr. Andrea Maroni Ponti (Italian Ministry of Health – IT MoH)

Dr. Franco Mutinelli (Istituto Zooprofilattico Sperimentale delle Venezie, FAO Reference Centre for Apiculture, Health and Biosecurity and NRL for honey bee health)

Dr. François Diaz (World Organisation for Animal Health, Preparedness and Resilience Department, Scientific Coordinator of Bee Health and Wildlife)

Dr. Junxia Song (FAO – Senior Animal Health Officer)

Dr. Jeff Pettis (President of International Federation of Beekeepers’ Associations - APIMONDIA)

14.30 Dr. Andrea Maroni Ponti (IT MoH) – Guaranteeing honey bee health in Italy under the new Animal Health Law

14.50 Dr. François Diaz (World Organisation for Animal Health, Preparedness and Resilience Department, Scientific Coordinator - Bee Health and Wildlife) - Activities of the OIE related to bee health.

15.10 Dr. Subramanian Sevgan (WOAH Collaborating Centre Bee Health in Africa) - Health of bees in Africa

15.30 Dr. Giovanni Formato (IZSLT, WOAHA Collaborating Centre for Good Beekeeping Management Practices and biosecurity measures in the apiculture sector, FAO Reference Centre for Apiculture, Health and Biosecurity) – Biosecurity measures for the honey bee diseases in Europe

15.50 Break

16.00 Dr. Jieun Choi Kim (FAO) - FAO contribution for AMR and bee health in the One Health approach

16.20 Dr. Fani Hatjina (Apimondia Bee Health Scientific Commission) - Evaluation of biological hazards linked to colony losses in managed western and eastern honey bee populations

16.40 Dr. Claude Saegerman (University of Liège, Belgium) – Prioritization of practices to prevent colony losses

17.00 Dr. Lotus Mohajer (FAO Oman) - Activities to promote honey bee health and production in the Sultanate of Oman

17.20 Dr. De Jong David (University of São Paulo, Brasil) - Biosecurity measures for africanized honey bees

17.40 Dr. Pingli Dai (Chinese Academy of Apicultural Science – CAAS, and Apicultural Science Association of China - ASAC) - Biosecurity measures for *Apis cerana*

18.00 Dr. Cristiano Menezes (EMBRAPA Meio Ambiente Jaguaruna, Brasil) - Biosecurity measures for stingless bees

18.20 Dr. Delphine Panziera (Wageningen University, Netherlands) - Biosecurity measures for *Bombus* spp.

18.40 Dr. Giovanni Formato (IZSLT – FAO RC and WOAHA CC) - Final comments, proposal and future perspectives

19.00 End of the meeting

Moderators:

Ivana Tlak Gajger (FVE – Federation of Veterinarians of Europe)

Giovanni Formato (IZSLT – FAO RC and WOAHA CC)
