

## SCIENTIFIC SUPERVISORS

Dr Roberto Nardini, Dr Ida Ricci, Dr Francesca Rosone, Dr Maria Teresa Scicluna, Veterinary Executive - IZSLT - Virology Operating Unit

**The Italian Continuing Education Medicine System 's Training Objective - Veterinary Health**

### TARGET AUDIENCE OF THE EVENT

Veterinarians (II.ZZ.SS network, Universities, Ministry of Health, Regions, AA.SS.LL, FF. AA., Ifreelancers), Biologists, Laboratory technicians  
Maximum number of attendees: **100**  
Minum number of attendees to launch the course: 50

## RATIONALE FOR SELECTION

1. The event is targeted to health workers operating in diagnostic and investigative activities relating to equine diseases; to operators belonging to trade associations in the equine field;
2. Registrations will follow the order of arrival

## CERTIFICATE OF ATTENDANCE REPORTING THE TRAINING CREDITS

The attendance of 90% of the training hours and passing the final exam is mandatory

## COURSEWARE

**The course material will be accessible on the Institutional website ([ww.izslt.it](http://www.izslt.it)) and on "Portale della Formazione"**

**FOR SPECIAL NEEDS (e.g. access to the venue for people with disability), please contact the Organizing Secretary of the Conference in time)**

## REGISTRATION MODE

The attendance is free of charge

## ITALIAN HEALTH PROFESSIONALS

Registration "Portale della formazione" at: <https://formazione2022.izslt.it/>

Registration deadline on 11/25/2022, confirmation by the Organizing Secretary via e-mail on 11/28/2022

## FOREIGN HEALTH PROFESSIONALS

**Registration by filling the form will be followed by the simultaneous confirmation of participation**

### ORGANIZING SECRETARY

IZS Lazio e Toscana  
TRAINING OPERATING UNIT  
Via Appia Nuova, 1411 - Roma  
Tel. 06.79099421/309  
email: [marzia.romolaccio@izslt.it](mailto:marzia.romolaccio@izslt.it)  
Sito web [www.izslt.it](http://www.izslt.it)

Translation service will be provided

## CANCELLATION TERMS

Failure to notify the waiver will be taken into consideration for the next training events. Promptly communicate to the Organizing Secretary is highly recommended

*Ministero della Salute*

## INTERNATIONAL CONFERENCE

# THE ROLE OF THE REFERENCE CENTERS FOR EQUINE DISEASES IN THE HEALTH MANAGEMENT OF THE HORSE

**DECEMBER, 7 2022**

**MINISTRY OF HEALTH  
Via Giorgio Ribotta, 5 - ROMA**

**Sala Auditorium B. Alba**

In accreditation for biologists, veterinarians and laboratory technicians

## PURPOSE

The event aims to provide updates on the epidemiology, diagnostics, control and scientific research of viral and genetic diseases

## OBJECTIVES

Acquisition of professional technical skills in the field of:

- epidemiology through the use of IT platforms for the management and sharing of data relating to equine infectious diseases;
- diagnostic protocols for prevalence studies of emerging and re-emerging viral diseases;
- research works on genetic diseases with prevalence studies;
- the use of regenerative medicine in muscle - skeletal disorders of the horse

## TEACHING METHODOLOGY AND LEARNING EVALUATION

- Lecture
- Discussion and debate managed by a moderator
- Learning assessment tool via Google
- Customer satisfaction assessment tool via google

## PROGRAM

08.30 Registration of participants at the conference secretariat

09.00 Greetings of the authorities and opening of the congress

09.30 **The activity of the reference center**  
Dr. Pierfrancesco Catarci- Ministry of Health

**EPIDEMIOLOGY SESSION: INFORMATION SYSTEMS – Dr Richard J. Newton - Dr Marcello G. Sala moderating**

10.00 **Equine Infectious Disease Surveillance: systems for monitoring and reporting global and UK equine disease occurrence**  
Dr Richard J. Newton - Equine Infectious Disease Surveillance, Department of Veterinary Medicine, University of Cambridge, UK

10.40 **Equine Infectious anemia: new proposed plan and new functions of the CRAIE WEBGIS portal**  
Dr Roberto Nardini - Virology Operating Unit, IZSLT - Rome, Italy

11.10 Debate

11.25 Coffee break

**VIRAL DISEASES SESSION – Dr Stephan Zientara - Dr Luigi Ruocco moderating**

11.45 **EURL on equine diseases- Emerging and re-emerging viral diseases of equines**  
Dr Stephan Zientara - EURL on equine diseases, Virology unit - Anses, Animal health laboratory, Maisons Alfort, Paris, France

12.25 **Prevalence studies of some equine emerging viral diseases**  
Dr Ida Ricci - Virology Operating Unit, IZSLT Rome, Italy

12.55 Debate

13.10 Lunch time

**GENETIC DISEASES SESSION – Prof. Elena Giulotto – Dr Maria Teresa Scicluna moderating**

14.10 **The sequencing of the equine genome and its main applications**  
Prof. Elena Giulotto – Biology and Biotechnologies Department “Lazzaro Spallanzani”, University of Pavia, Italy

14.50 **Prevalence studies of certain genetic diseases in some equine populations**  
Dr Francesca Rosone - Virology Operating Unit, IZSLT Rome, Italy

15.20 Debate

**STEM CELLS SESSION Prof. Maurizio Del Bue - Dr Maria Teresa Scicluna moderating**

15.35 **Regenerative Medicine: new therapeutic perspectives in veterinary medicine**  
Dr Katia Barbaro - Virology Operating Unit, IZSLT Rome, Italy

16.15 **The use of mesenchymal stromal cells (stem cells) in muscle-related pathologies and not solely**  
Prof. Maurizio Del Bue – Veterinarian and former ordinary professor at Parma University, Italy

16.45 Coffee break

17.00 Debate

17.30 Closing of the conference
