Oggetto: Reminder: Please pay the article-processing charge for your article in BMC Veterinary Research

MS: BVET-D-16-00497

Evaluation of six serological ELISA kits available in Italy as screening tests for equine infectious anaemia surveillance

by Maria Teresa Scicluna, ROBERTO NARDINI, Gian Luca Autorino, Charles John Issel, R. Frank Cook, Ida Ricci, Raffaele Frontoso and Francesca Rosone

Accepted to BMC Veterinary Research on 24 March 2017.

Dear Dr Scicluna,

Your manuscript is currently in production. In order to ensure it is published as quickly as possible,

Please pay the article-processing charge (APC). The APC for this submission is GBP 1370.0 / EUR 1745.0 / USD 2145.0.

Details of the APC for this manuscript, as well as both credit card and invoice payment methods, are available at: <https://payment.biomedcentral.com/manuscript/5445717072024400>. If payment is not received within seven days from the acceptance date of the manuscript we may change the payment option to invoice to ensure publication is not delayed. Note, invoice (off-line) payments will incur an additional charge of GBP 50.00 / EUR 55.00 / USD 75.00.

Please do not hesitate to contact us if you have any questions.

Best wishes,

BioMed Central Customer Services
